# THE ULTIMATE MULTI- SPORTS COMPLEX

OVERALL THE EVIDENCE SUPPORTED THE THEORY THAT SPORT HAS A POSITIVE IMPACT ON INDIGENOUS WELL-BEING AND MENTORING AND CAN CONTRIBUTE POSITIVELY TO ACHIEVING THE CLOSE THE GAP TARGETS IN AREAS SUCH AS HEALTH, EDUCATION AND EMPLOYMENT.

- JANELLE SAFFIN, COMMITTEE CHAIR HOUSE OF REPRESENTATIVES STANDING COMMITTEE ON ABORIGINAL AND TORRES STRAIT ISLANDER

BROUGHT TO YOU BY  
RAGE CAGE

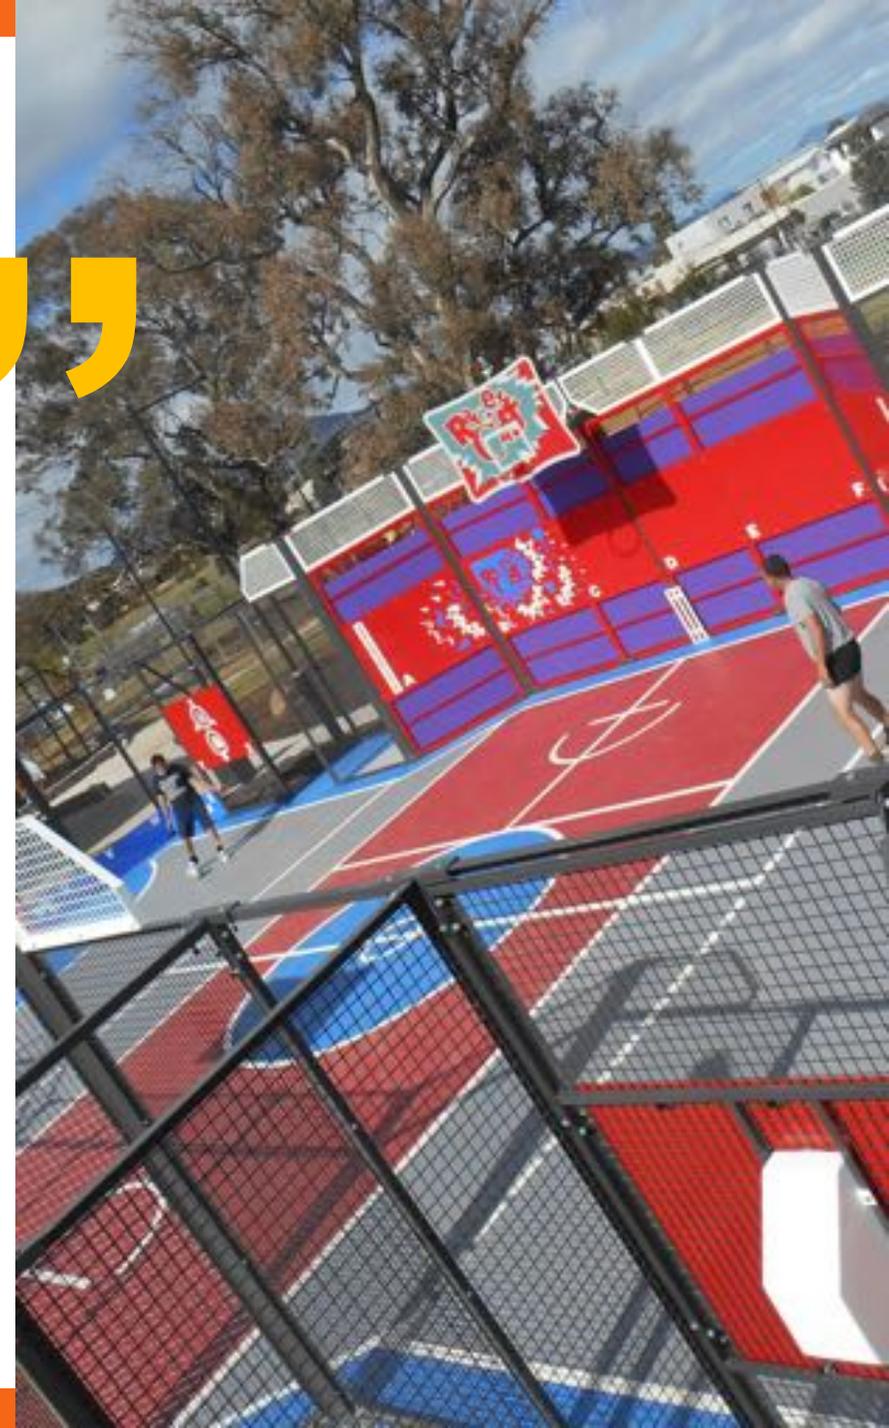

**HAVING BEEN UNDER RESOURCED IN THE WAY OF YOUTH FACILITIES FOR YEARS, THE TOWN OF YALGOO HOPE THAT A LONG AWAITED SPORTING PRECINCT WILL GIVE LOCAL KIDS AN OPPORTUNITY TO GET INVOLVED IN STRUCTURED TEAM SPORTS.**

**- ABC NEWS, 6 JUNE, 2013**

The Ultimate Multi-Sports Complex is an innovative Australian sporting cage designed by Rage Cage; a company who has been installing world class sporting complexes across Australia for the past 20 years. The original design was created by founder and Lead Project Manager Leon Purdy. Leon wanted to give his kids more sporting options at home. He created the first edition called “the Rage Cage” in his own backyard in rural South Australia. Over the past 10 years, the design has continued to evolve into the Ultimate Multi-Sports Complex that is delivered today.

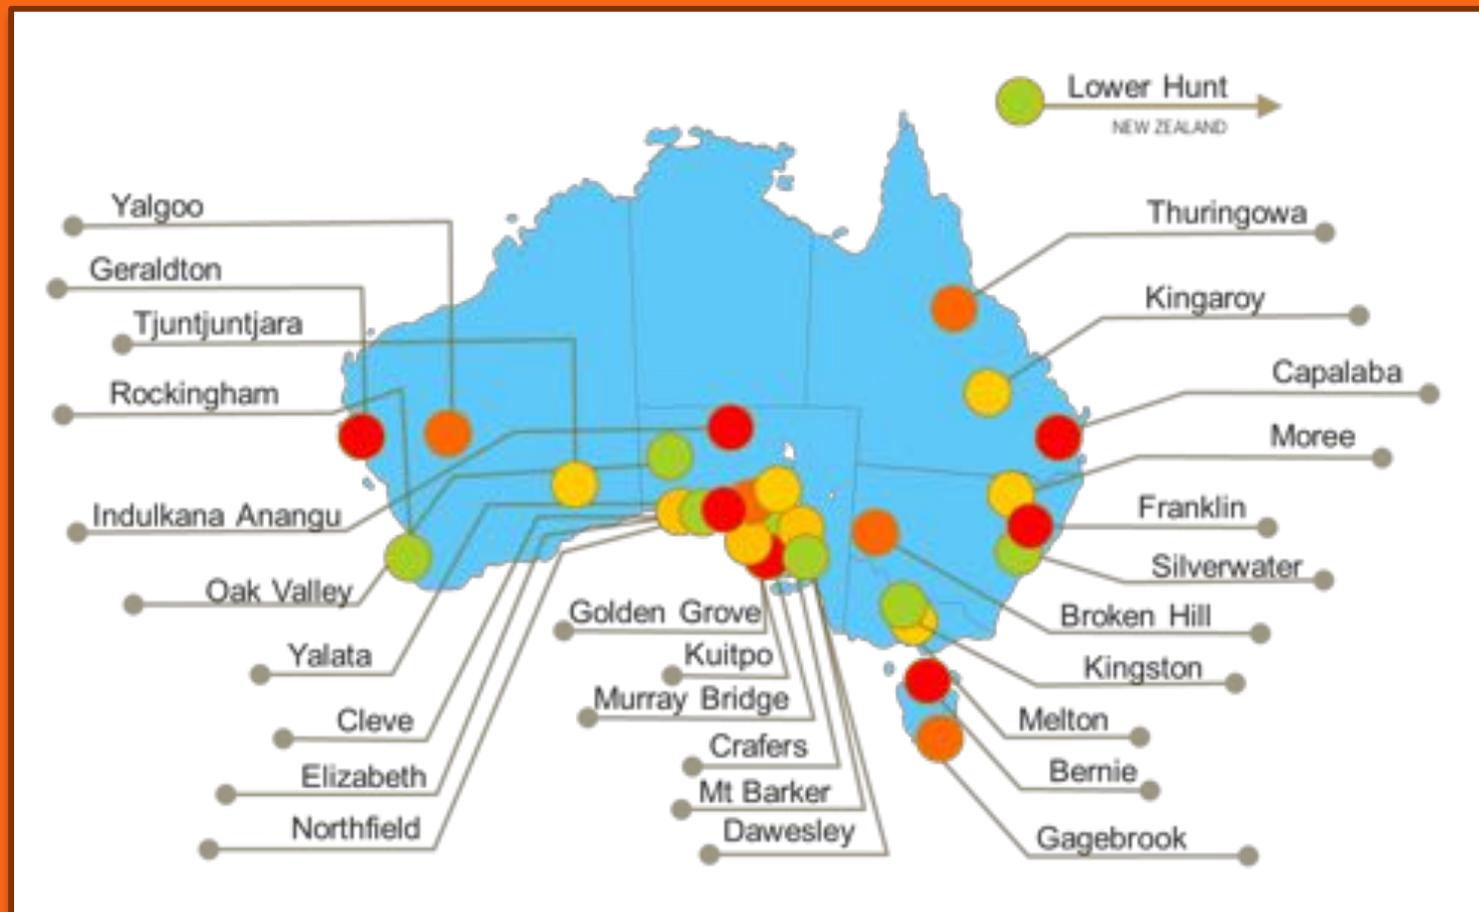

The Ultimate Multi-Sports Complex is an innovative, creative design solution to maximise space and safety, whilst offering local residents the opportunity to connect, learn and play a wide variety of sports and activities. The centre can be used by both individual groups, local sporting associations (organised sport) and schools for PE training. Further, the size of the complex can be built to allow full competitive size netball, basketball, tennis, volleyball for use for sporting competitions.

The wide range of activities provided gives kids (and adults!) a continuous variety of physical activities, ensuring they are continuously entertained! The complex also has wheelchair access and is wheelchair sports compatible.

**MORE THAN 30  
COMMUNITIES  
AND SCHOOLS  
ENJOY THEIR  
LOCAL  
COMPLEX  
ACROSS  
AUSTRALIA &  
NEW ZEALAND**

Since the concept of the “Rage Cage” began, the company has grown and taken off across Australia. The original version of the “Rage Cage” can be seen everywhere from local parks in the centre of the ACT, to indigenous rural communities in the middle of WA.

**AUSTRALIA & NEW ZEALAND LOVE THE  
ULTIMATE MULTI-SPORTS  
COMPLEX BY RAGE CAGE!**

**BECAUSE OF THE SOLID CONSTRUCTION  
IT IS VIRTUALLY IMPOSSIBLE TO BREAK  
ANY OF THE EQUIPMENT!  
- PE TEACHER - ADELAIDE HILLS**

When designing the first Rage Cage, founder Leon Purdy knew that all systems must last the test of time! Manufactured in Adelaide, South Australia, the quality of the product is second to none. The system is constructed from galvanised and powder coated Australian steel materials; which are cut to size before being shipped to your site for installation. All elements of the complex meet the Australian Standards.

Each Complex is purpose designed and built to meet the needs of your community, budget, space allocation and sporting preferences. The Ultimate Multi-Sports Complex is designed with a closed in cage area providing an easy to monitor and controlled sporting environment when required.

Each installation takes between 7-14 days (pending weather), meaning the entire system can be erected quickly at a convenient time for your community.

The cage can also be locked as required, creating a safe zone for the equipment inside. However, all equipment can be designed as permanent structures to alleviate the need to put 'up and down' and reduce the amount of stolen equipment.

Please click here to see a video example of the finished product:

# SPORTS! SPORTS! SPORTS!

MORE THAN 20+ SPORTS FOR YOUR SCHOOL  
TO CHOOSE FROM!

Soccer	Cricket	Tennis	BMX	Bouldering
Mini Golf	Hockey	Hopscotch	Skate-boarding	Netball
Soft Crosse	Badminton	Educational Games	Rugby	Handball
Inline Hockey	Volleyball	Football	Futsal	R/C Vehicles

When selecting the range of sports, each community has its own unique needs and our Project Managers take great pride in working with the local community to tailor each complex. Additional sports are also available – please speak to your Project Manager.

# BENEFITS FOR INDIGENOUS COMMUNITIES

The Rage Cage Ultimate Multi-Sports Complex has been erected throughout indigenous communities across Australia with outstanding results for the local communities. The system is perfect for regional communities as it combines numerous sports in the one location and can act as an engagement and connection tool for the local residents.

In 2012, The House of Representatives standing Committee on Aboriginal and Torres Strait Islander Affairs conducted an inquiry into the contribution that sport makes to Indigenous wellbeing and mentoring and sought to explore reasons for non-participation in indigenous communities. The reports key findings are highlighted below.

The effects of the non-participation are significant.

- Two-thirds of non-indigenous Australians took part in sport and physical recreation activities in the year, while less than half the indigenous population participated in sport and physical recreation.
- The gap in health indicators between Indigenous and non-Indigenous people in the United States, Canada and New Zealand is narrowing however in Australia the gap continues to widen.
- Physical inactivity is responsible for 8.4% of the total disease burden for Indigenous Australians. It is of further concern that overall rates of sedentary and low levels of exercise are notably higher among Indigenous Australian females (82%) compared to Indigenous Australian males (67%).

THERE IS WIDESPREAD ACKNOWLEDGEMENT THAT PARTICIPATION IN PHYSICAL ACTIVITY IS A FUNDAMENTAL MEANS OF IMPROVING THE PHYSICAL AND MENTAL HEALTH OF INDIVIDUALS, HOWEVER INDIGENOUS AUSTRALIANS ARE LESS LIKELY TO BE PHYSICALLY ACTIVE THAN NON-INDIGENOUS AUSTRALIANS.

ABS, 2007

The benefits of successfully implemented sport programs highlights the importance of sport to Indigenous communities.

- Programs may divert young people from crime, motivate them to attend school, build leadership skills, foster community role models and provide opportunities for employment and volunteering.
- Sport and recreation also provides alternatives to antisocial behaviours such as alcohol abuse and this can have flow-on effects for the community in terms of reduced violence, injury and suicide prevention
- Indigenous people participate in community sporting events with great enthusiasm, skill and passion, and this has been reported to bring pride and cohesiveness to communities.

The report highlighted that structural barriers can decrease participation in sport. However, the report further highlighted that instead of focusing on the barriers that are presented to introducing programs it is more productive to highlight the facilitators and enablers that have allowed successful programs to be run and developed in Indigenous communities:

- Reduce physical barriers such as limited access to facilities, high costs of transport, membership and uniforms.
- Flexibility in sport selection, program design and delivery to meet the requirements of the community is essential. This point is especially relevant to female Indigenous participation.
- Establishment of community engagement for a long term period; having a sport come into a community to deliver a program for a set period of time and then leave provides no lasting benefit beyond the period of participation.

**Building an Ultimate Multi-Sport Complex in your region will support the whole community; giving children and teens a great place to meet and play – in the most fun way!**

**RAGE CAGE HAS PROVEN TO BE A HIGHLY ETHICAL COMPANY... EACH PROJECT WAS COMPLETED ON TIME AND WITHIN THE SPECIFIED BUDGET... THEY ARE A PLEASURE TO WORK WITH.**

**- WILTJA RESIDENTIAL PROGRAM**

**IF YOUR COMMUNITY IS INTERESTED TO FIND OUT MORE, THE PROCESS IS AS SIMPLE AS A FEW EASY STEPS!**

- 1. Contact us:** It's as easy as picking up the phone or sending us an email to find out if our system is right for your community.
- 2. Site Assessment & Inspection:** One of our Expert Project Managers will visit your site to assess the location and discuss your vision for your new Ultimate Multi-Sports Centre. Please note, depending on location, not all sites will be able to be visited prior to Quote and Planning.
- 3. Quote and Plan presented:** Next, a quote and draft plan are presented for your approval and feedback. This process will see our Project Manager to work with you to ensure all your requirements are met to budget.
- 4. Build and installation:** The Complex takes as little as 7 Days to install! Our team of highly skilled engineers and trades work extremely fast to ensure minimal disruption to your community. All Rage Cage Systems are manufactured in South Australia and achieve accredited safety standard approved by independent engineering firms. Manufacturing quality meets ISO:9001 standards.
- 5. Launch!** Once your Complex is ready, let's launch it! The launch of your Multi-Sports Complex is a wonderful engagement tool for the community and you're lucky, Captain Rage Cage may even pop by for a visit on the day! The Multi-Sports Complex is also a great way to gain PR for your community. Local media love the Australian built unique system and the Complex has appeared in a wide range of Media articles across Australia.
